SORAFENIB: trend dei consumi, della spesa e del prezzo medio (unità posologiche, DDD, valori tracciabilità) 1330

SUGAMMADEX: trend dei consumi, della spesa e del prezzo medio (unità posologiche, DDD, valori tracciabilità) 1332

SUNITINIB: trend dei consumi, della spesa e del prezzo medio (unità posologiche, DDD, valori tracciabilità) 1334

TACROLIMUS: trend dei consumi, della spesa e del prezzo medio (unità posologiche, DDD, valori tracciabilità) 1336

TEICOPLANINA: trend dei consumi, della spesa e del prezzo medio (unità posologiche, DDD, valori tracciabilità) 1338

TOLVAPTAN: trend dei consumi, della spesa e del prezzo medio (unità posologiche, DDD, valori tracciabilità) 1340

TRABECTEDINA: trend dei consumi, della spesa e del prezzo medio (unità posologiche, DDD, valori tracciabilità) 1342

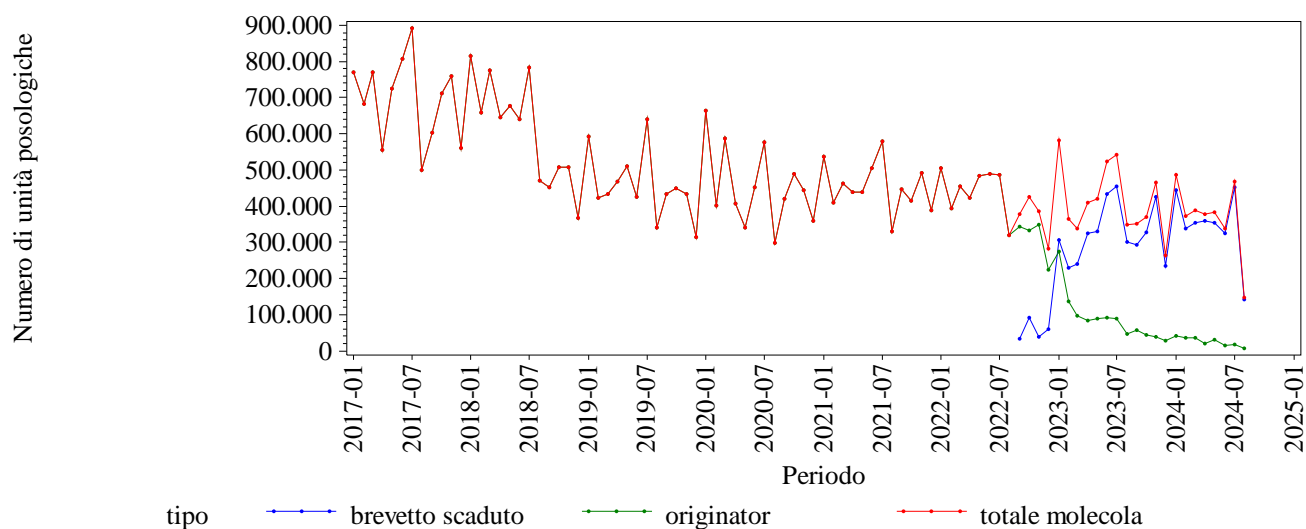

SINTESI

Gli approfondimenti proposti nel presente documento hanno l'obiettivo di valutare l'andamento dei consumi dei farmaci a brevetto scaduto, come rilevati nel canale degli acquisti diretti (flusso NSIS della tracciabilità del farmaco), non solo con riferimento all'intero territorio nazionale, ma anche nei diversi aspetti regionali. Le analisi comparative presentate nel report tra prodotti originator e prodotti a brevetto scaduto, con riferimento sia alla spesa che ai consumi (DDD e numero delle unità posologiche) mensilmente erogati, permettono di cogliere le modifiche negli andamenti prescrittivi e di valutare l'impatto delle azioni regolatorie.
